

CAREER OBJECTIVE

Motivated B.Sc IT student passionate about web development and practical learning. Seeking an opportunity to improve my skills in PHP, MySQL, and backend development while contributing to real-world projects and growing as a developer.

WORK EXPERIENCE

PHP Developer Intern • Internship

Apr 2026 - May 2026

Persona Project, Virtual

- Developed a Student Attendance Management System using PHP and MySQL.
- Learned backend development, database integration, CRUD operations, and debugging through practical implementation.
- Worked on attendance tracking, student management, and report generation features.

EDUCATION

Five year integrated course of MSc In Information Technology, Computer Science & Technology

2023 - 2027

Vanita Vishram Women's College Of Commerce

Five year integrated course of MSc In Information Technology, Science And Technology

2024 - 2027

Vanita Vishram Women's College Of Commerce

CGPA: 6.90/7

Bachelor of Science (B.Sc), Information Technology

2023 - 2027

Vanita Vishram Women's College Of Commerce

CGPA: 6.27/10

Senior Secondary (XII), GBSC

2023

Commerce

Madhavbaug Vidhya Bhavan

Percentage: 60.87%

Secondary (X), GSEB

2021

Madhavbaug Vidhya Bhavan

Percentage: 80.57%

TRAININGS / CERTIFICATIONS

Php And Mysql Web Development

Mar 2026 - May 2026

Self-learning, Virtual

PHP, MySQL, HTML, CSS, Database Management

PROJECTS

[Student Attendance Management System ↗](#)

Apr 2026

The Student Attendance Management System is a software application developed to efficiently manage and track students' attendance in an organized and automated manner. The system helps reduce manual work and minimizes errors associated with traditional attendance methods. This project allows administrators or teachers to record, update, and monitor student attendance on a daily basis. It provides features such as adding student details, marking

attendance, viewing attendance records, and generating reports. The system ensures accurate data storage and easy retrieval of attendance information whenever required. The application is designed with a user-friendly interface, making it simple for users to operate. It improves productivity by saving time and maintaining transparency in attendance tracking. Additionally, it can help in analyzing student attendance patterns and identifying irregularities. Overall, this system offers a reliable and efficient solution for educational institutions to manage attendance digitally.

SKILLS

- PHP
- CSS
- Problem Solving
- Frontend development
- Software Development Life Cycle (SDLC)
- MySQL
- Web development
- Debugging
- Backend development
- HTML
- Database Management System (DBMS)
- GitHub
- Responsive Design

EXTRA CURRICULAR ACTIVITIES

- I have been actively involved in academic projects, presentations, and team-based activities, where I contributed to planning, execution, and coordination. I have taken initiative in leading small tasks and supporting event organization, which helped me build strong communication, leadership, and problem-solving skills. I am a proactive individual who enjoys working in collaborative environments and continuously seeks opportunities to learn and grow.

ADDITIONAL DETAILS

- Developed a Student Attendance Management System using PHP and MySQL. Learning web development, database management, debugging, and problem-solving through practical projects and continuous self-improvement.
